

## PRE-VISIT ACTIVITY

# FAMILY TREE

In the pre-visit activity, students will review the Lee family tree. Students will hear more about these family members when they take their tour at Lee Chapel. Family trees are a great way to learn about a family's history and the connection they might have with other families. To the best of their knowledge, students should fill in the blank family tree with the names of their family members. They can use the Lee family tree as an example.

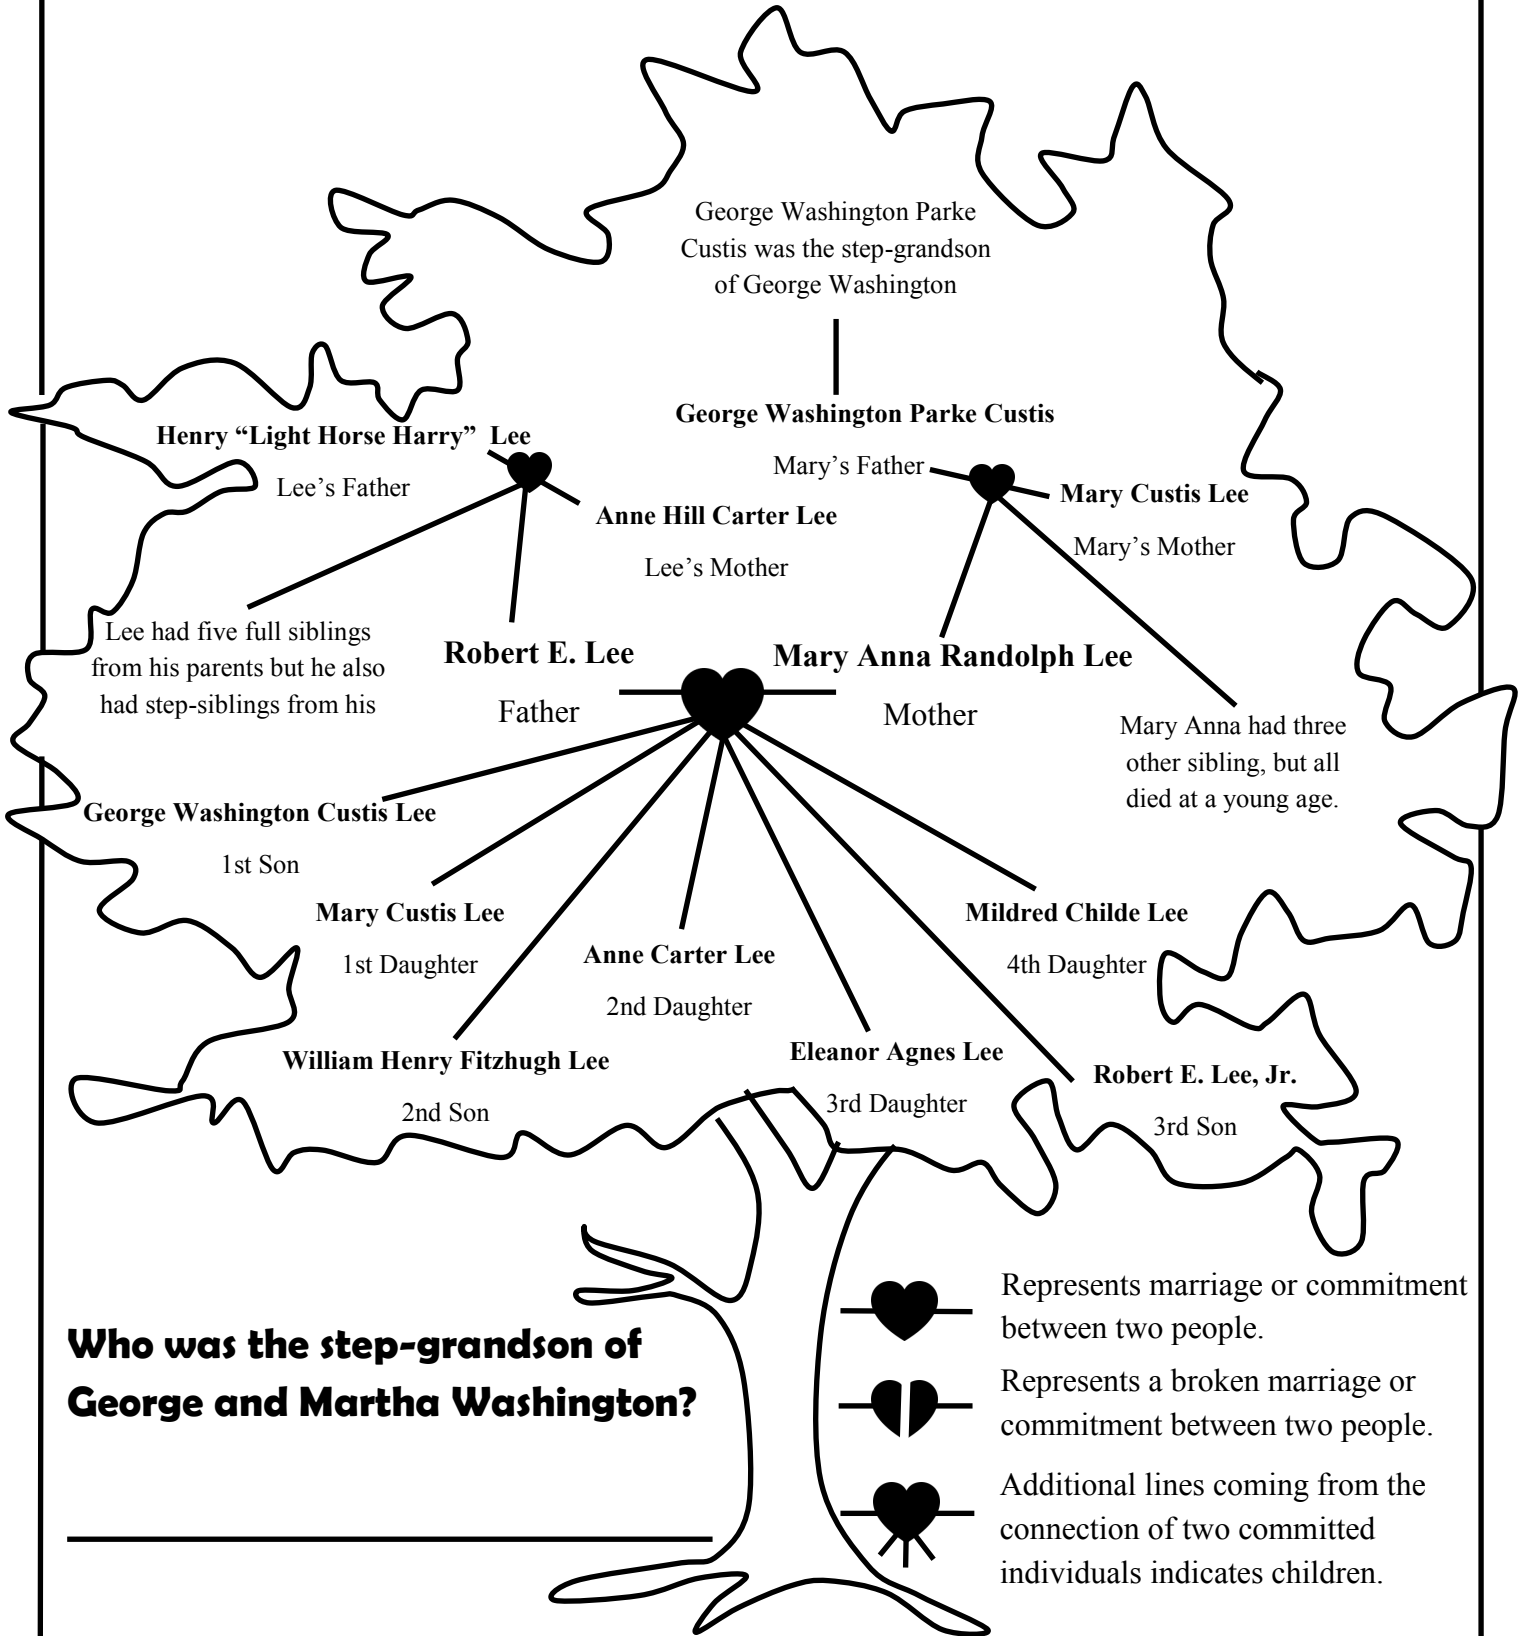

### Materials Needed:

- **Writing Utensil**

# PRE-VISIT ACTIVITY: FAMILY TREE

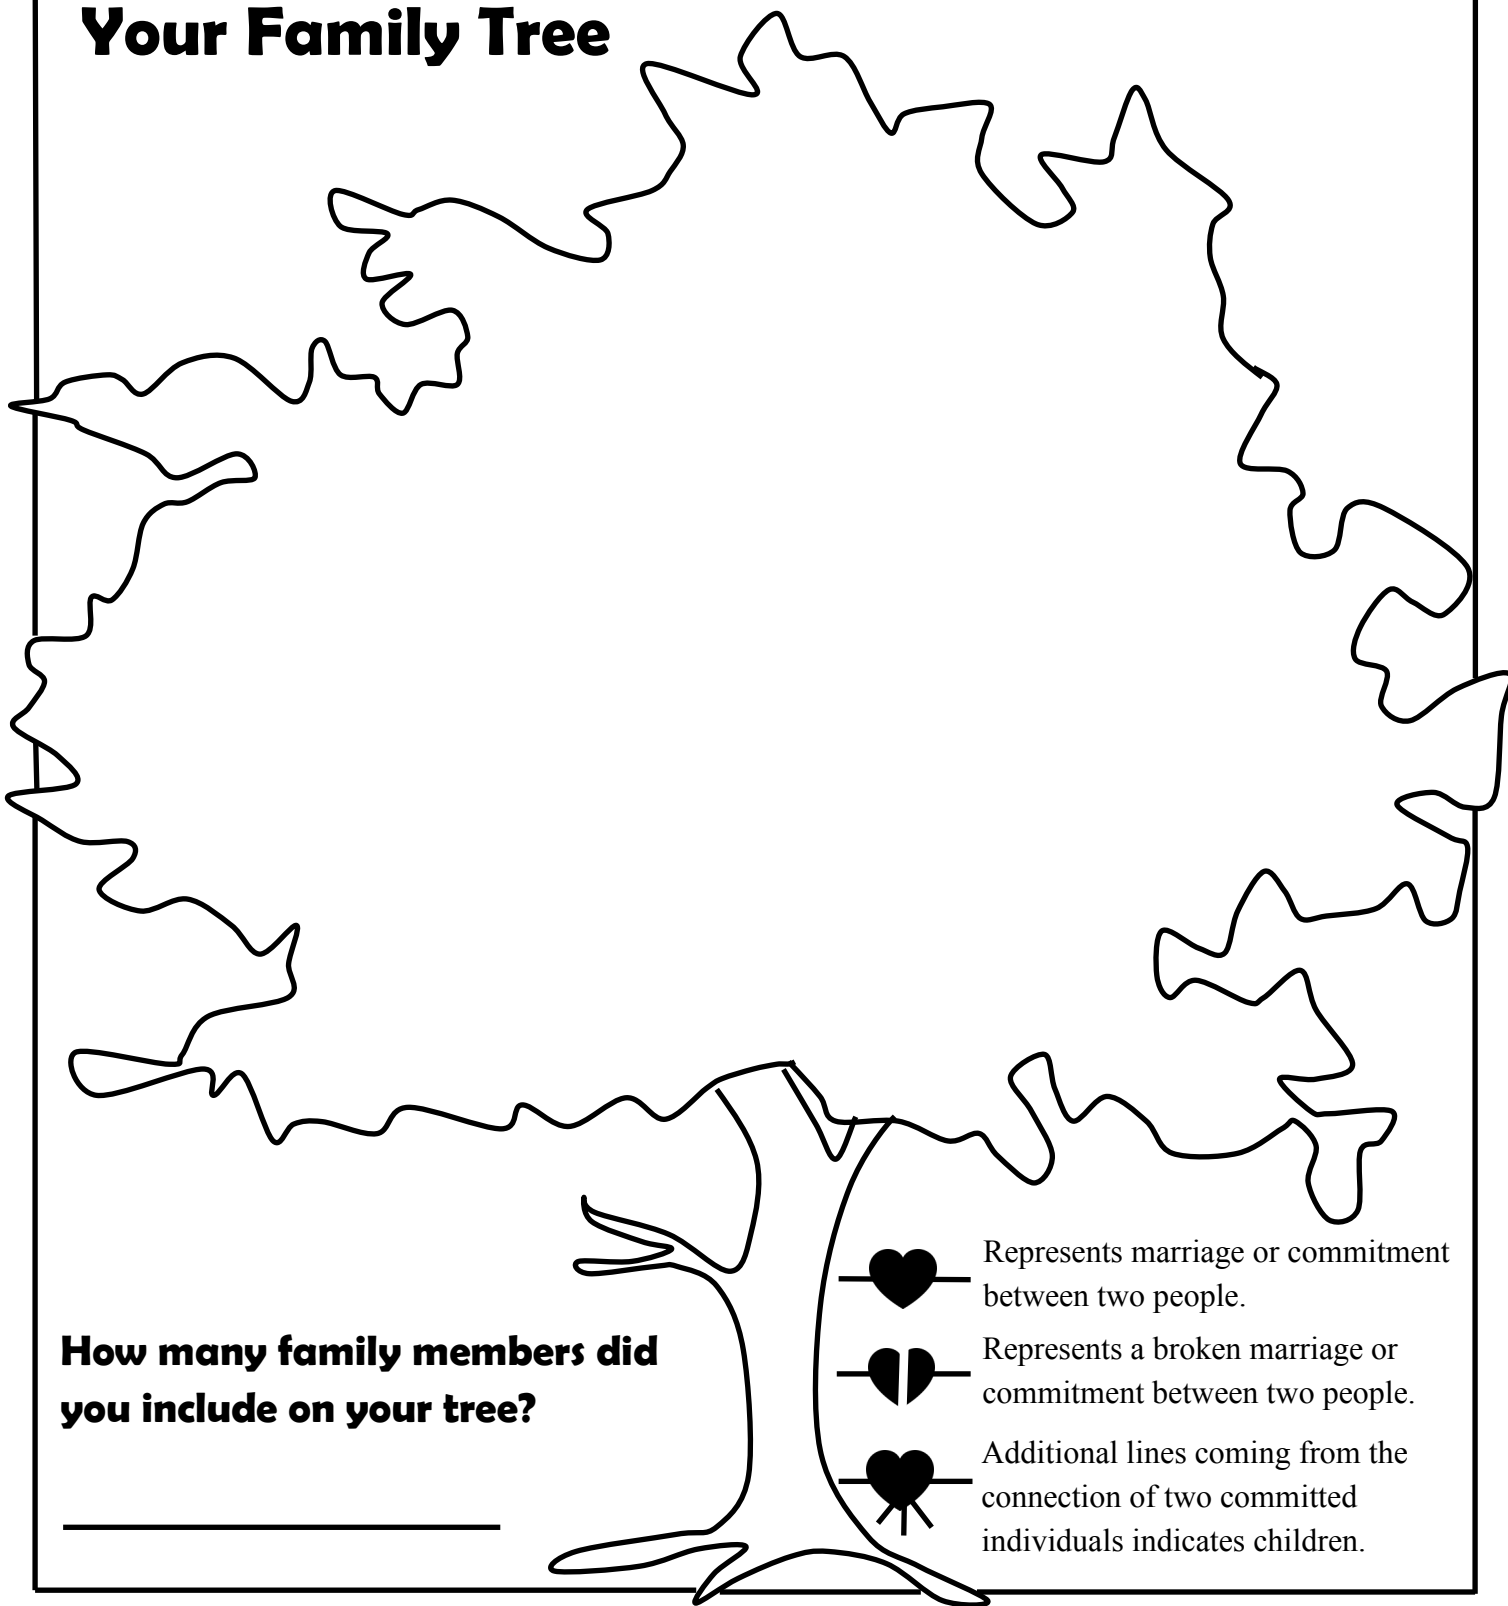

During your visit to Lee Chapel and Museum you'll be learning all about the different members of the Lee Family. Take a look at the family tree below. It shows the individuals you'll hear about during your tour. Family trees are a great way to learn about the history of a family and the connections it might have with others.

## PRE-VISIT ACTIVITY: FAMILY TREE

On the tree below, fill in your family tree from memory. Make sure to include you, your siblings, your parents, and grandparents from each side of your family. If your family consists of step-parents or step-siblings make sure to include them! (Hint: start by putting your parents' names in the middle of the tree.)

### Your Family Tree

**How many family members did you include on your tree?**

\_\_\_\_\_

Represents marriage or commitment between two people.

Represents a broken marriage or commitment between two people.

Additional lines coming from the connection of two committed individuals indicates children.
